04-Nov-1999 25-Jun-2002 ARTHRALGIA ASTHENIA DEAF

Symptom Text: Joint pain, fatigue and "tunnel hearing" post each of four anthrax shots. She has been evaluated by the rheumatology service as well as locally for the arthralgias. At the time of evaluation (after the 4th shot) she was no longer experiencing the fatigue or "tunnel hearing" but continued to experience arthralgias. Pt states that the arthralgias subsided early in the summer of 2000, but could not be certain of an exact date. She also stated she was not entirely sure her symptoms were solely caused by the ant
